## Great Reduction of Price!

PROSPECTUS OF THE DEMOCRATIC REVIEW.

THE price of the Democratic Review has heretofore been too high—not for its size cost, and character, but for the means of tens of thousands of readers who would be glad to receive it, and among whom it is highly desirable that it should circulate. For the purpose, therefore, of largely widening the range of its usefulness, and of multiplying the numbers of those to whom it may be accessible, it has been determined, simultaneously with the great reduction in the expenses of the postage, to reduce its subscription price, also, from Five to only Three dollars; and when several unite in subscription to as low as 2,50, or even 2,30 per annum.

This very large reduction in the receipts (accompanied with but a comparatively small diminution of its expenses) involves, of course, an entire sacrifice of profit upon it, unless compensated by a vast multiplication of subscribers. There will be at the outset only a small reduction in its number of pages; soon to be restored to its old number, without increase of price, when the anticipated success of the experiment shall justify it.

The Portraits of Distinguished Den-OCRATS will be continued-engraved in bet-

ter and more costly style than heretofore. The Postage will hereafter, for any distance, be only five and a half cents; it has heretofore been, for over 100 miles, eighteen

We look for an extension of circulation to be reckoned by tens of thousands, as the result and compensation of this great reduction of price. Every friend of the work, and of the Democratic principles and cause, is confidently appealed to, to exert himself with an active interest to procure it subscribers; both to extend its usefulness, and to carry it successfully through the crisis of this great re-

ANN ARBOR, Feb. 17th 1842. Mr. Edward Bingham:

Sir-Having had repeated opportunities of fever and ague and bilious diseases generally. Many cases have come under my observation, of persons who have suffered for years, who have been immediately relieved by the use of one or two bottles of the Cholagogue; and I have not known a single case where relief has not been ob tained by its use.

Believing that the general use of this medicine must be of the greatest importance to all persons living in those parts of our country, which are subject to bilious Diseases, I give it this general recommendation Nor is the pleasure of this act diminished by the fact that I am personally acquainted with Dr. Osgood, and that I have the most entire confidence in him as a skillful, experienced, and judicious physician.
